

One and Truly Dental Warranty

We are very proud of the dentistry we provide. Because we're confident of the durability of our treatments we offer the following limited dental warranties. However, since the long-term success of the treatment we provide depends on following basic dental hygiene and other prescribed care, the warranty does come with certain conditions as described below.

Composite (tooth colored) Fillings

1. **Limited 2 Year Warranty.** In case of any type of failure of your filling:
 - a. If composite is our recommended re-treatment, then we will repair or replace a failed filling at no charge.
 - b. If the tooth breaks or requires a crown or other treatment, we will credit the copay of your original filling toward the **copay** of the new recommended treatment. [For **out-of-pocket patients**, we will credit the original payment to the cost of the new recommended treatment.]

Crowns, Bridges, Inlays, Onlays, and Porcelain veneers

1. **Limited 5 year Warranty.** We will replace or repair these at no charge if they chip, break, or come off with normal use. In case of *loss* of the actual crown, you will have to pay the lab fee for a new crown.

Conditions on the above Warranties

1. The above warranties are in effect for any treatment starting 10th March, 2021.
2. The above warranties are **conditioned on your continuing to get regular cleanings, with not more than 6 months between cleanings.**
3. If a night guard is part of your treatment plan, it must be made in our office, worn nightly, and be brought to each cleaning visit to maintain a valid warranty.
4. The above warranty doesn't cover damages to teeth or dental restorations caused by accident, trauma, neglect, or improper use (i.e. biting non-food items such as ice, fingernails, pencils, or similar).
5. For veneers, should any breakage occur, they will be replaced, but changes in shape, length, or color will not be warranted once the patient aesthetically approves them prior to cementation.
6. The above warranties do not apply to pediatric dental treatments.
